HOME AWAY FROM HOME
Home away from home is a garden that represents a space where the guest can feel as if they are home. We wanted this place to feel as if one is at home and has no worries. Each representation of the area represents a point of interest of a room in a home away from home. It is a place where the guests can feel peaceful and socialize with the community. Also, we wanted to incorporate neutral colors that are vibrant and engages the guests to enter and be able to wait for their children to get out of school. Home away from home features a community center with an open breezeway in the center, an orchard, and a memorial to honor the previous owner of the property, who is taken care of and enjoyed having significant plantings. You might in some areas what the path was to remember what is the past and now that is the future.
